|    |                                                                                    |  |
| 9. | Describe any safety considerations for refuelling or recharging this tool (fuel    |  |
|    | or battery tools only)?                                                            |  |
|    |                                                                                    |  |
|    |                                                                                    |  |
|    |                                                                                    |  |
|    |                                                                                    |  |
|    |                                                                                    |  |
|    |                                                                                    |  |
|    |                                                                                    |  |
|    |                                                                                    |  |
|    |                                                                                    |  |
|    |                                                                                    |  |

| PRACTICAL ASSESSMENT (TO BE COMPLETED BY ASSESSOR)                                                                                                                           |         |  |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------|--|
| TASK / OBSERVATION (TRAINEE MUST SUCCESSFULLY<br>DEMONSTRATE THE FOLLOWING)                                                                                                  | C / NYC |  |
| PLANNING & PREPARING FOR BRUSH CUTTER OPERATION                                                                                                                              |         |  |
| The trainee accessed and confirmed appropriate working requirements.                                                                                                         |         |  |
| The trainee accessed, interpreted, and applied documentation and appropriate working procedures.                                                                             |         |  |
| The trainee identified and addressed the potential hazards, risks, and environmental issues, by implementing control measures according to appropriate workplace procedures. |         |  |
| The trainee selected and wore the correct personal protective equipment required for the current work activity.                                                              |         |  |
| The trainee obtained and interpreted emergency procedures, and prepared for emergency situations.                                                                            |         |  |
| SELECT AND SAFELY USE BRUSH CUTTER                                                                                                                                           |         |  |
| The trainee selects the brush cutter appropriate for the work activity.                                                                                                      |         |  |
| The trainee inspects the brush cutter for serviceability and reports faults.                                                                                                 |         |  |
| The trainee inspects power leads and hoses for serviceability and reports faults (if applicable).                                                                            |         |  |
| The trainee establishes a clear route for the safe placement and connection of power leads and hoses (if applicable).                                                        |         |  |
| The trainee clamps or fixes material in position for power tool application according to workplace procedures (if applicable).                                               |         |  |
| The trainee uses the brush cutter safely and correctly.                                                                                                                      |         |  |
| PACK UP AND CLEAN UP                                                                                                                                                         |         |  |
| The trainee stores the brush cutter safely when not in immediate use.                                                                                                        |         |  |
| The trainee clears the work area and disposes of materials and waste.                                                                                                        |         |  |
| The trainee cleans, maintains, and inspects the serviceability of the brush cutter, addressing and reporting any issues to relevant personnel.                               |         |  |
| The trainee completes written records and reports according to workplace procedures.                                                                                         |         |  |
| ASSESSMENT RESULT                                                                                                                                                            | C / NYC |  |
