PRACTICAL ASSESSMENT (TO BE COMPLETED BY ASSESSOR)	
TASK / OBSERVATION (TRAINEE MUST SUCCESSFULLY DEMONSTRATE THE FOLLOWING)	C / NYC
PLANNING & PREPARING FOR SAWING AND CUTTING OF CONCRETE PAVEMENT TO INITIATE PLANNED CRACKS	
The trainee obtained, interpreted, clarified, and confirmed work requirements.	
The trainee accessed, interpreted, and applied documentation required to initiate planned cracks in concrete pavements and confirmed work activity compliance.	
The trainee identified and addressed potential risks, hazards, and environmental issues, and implemented control measures.	
The trainee selected and wore personal protective equipment according to site requirements.	
The trainee identified, obtained, confirmed, and implemented signage and barrier requirements.	
The trainee selected and checked for faults in plant, tools, and equipment.	
The trainee marked out saw-cuts according to job requirements.	
SELECTING AND OPERATING A CONCRETE SAW	
The trainee selected a concrete saw according to job and site requirements.	
The trainee checked equipment according to manufacturer specifications and site requirements and reported faults.	
The trainee assessed concrete and determined the required timing of saw-cut according to job requirements.	
The trainee connected hoses to the tool and covered trip hazards according to job and site requirements.	
The trainee used the concrete saw in application processes according to job and site requirements and confirmed specified storage when not in use.	
The trainee sawed and cut to specified dimensions according to job requirements.	
The trainee cleaned out and protected open cuts according to site requirements.	
The trainee completed saw cutting records according to site requirements.	
The trainee monitored movements and hazards, and identified and communicated changes to the work environment according to site requirements.	
CLEANING UP ACTIVITIES	
The trainee cleared the work area and disposed of, reused, or recycled materials according to site requirements.	
The trainee cleaned, checked, maintained, and stored machinery, tools, and equipment according to manufacturer specifications and site requirements.
