KNOWLEDGE ASSESSMENT (TO BE COMPLETED BY TRAINEE)

QUESTION	C / NYC
1. List at least 4 things that you would inspect as part of a pre-start check.	
2. List at least 3 issues that that could impact the safety of the machine (e.g. overly worn tyres).	
3. What should you do if you identify significant defects or issues during your pre-start check?	
4. List at least 2 safety features on this machine and their function.	

<p>5. List 5 hazards that may exist during operation of this machine. For each hazard, list a control measure to manage that hazard.</p>	
<p>6. List any PPE requirements that may exist for this machine.</p>	
<p>7. List an emergency situation that could occur during operation of this machine and include how you would respond to this situation.</p>	
<p>8. Where should you park the machine and what should you do with the keys when you have finished?</p>	
<p>9. Describe any safety considerations for refuelling or recharging this machine.</p>	

PRACTICAL ASSESSMENT (TO BE COMPLETED BY ASSESSOR)	
TASK / OBSERVATION (TRAINEE MUST SUCCESSFULLY DEMONSTRATE THE FOLLOWING)	C / NYC
PLANNING FOR GRADER OPERATIONS	
The trainee can access, interpret, and apply grader operations documentation.	
The trainee obtains, interprets, clarifies, and confirms work requirements.	
The trainee identifies hazards and environmental issues, assesses risks, and implements control measures in line with workplace policies.	
The trainee selects and wears personal protective equipment required for work activities.	
The trainee accesses, interprets, and applies geological and survey data necessary to complete the work activity.	
Inspecting and preparing the work area in coordination with others is done by the trainee in line with workplace requirements.	
The trainee selects the required grader equipment and confirms its suitability for work activities.	
The trainee obtains and interprets emergency procedures and is prepared for fires, accidents, and emergencies.	
Prior to the commencement of work activity, the trainee coordinates and communicates planned activities with others at the site.	
OPERATING GRADER IN LINE WITH ESTABLISHED REQUIREMENTS	
The trainee carries out prestart and start-up checks following workplace procedures.	
The trainee identifies faults or defects and rectifies or reports them within their scope of responsibility and according to workplace procedures.	
When driving and operating the grader, the trainee uses techniques suited to equipment capabilities, site, and work conditions, following workplace procedures.	
The trainee conducts, controls, and monitors operations within the equipment limitations.	
Monitoring and managing equipment performance using indicators and alarms are tasks performed by the trainee.	
The trainee monitors hazards and risks during operations to ensure the safety of themselves, other personnel, and plant and equipment.	
After completing the task, the trainee parks up, shuts down, secures, and carries out a post-operational inspection of the equipment following workplace procedures.	
HOUSEKEEPING ACITIVITES	
The trainee clears the work area and disposes or recycles materials according to workplace procedures.	
The trainee manages and/or reports hazards to maintain a safe working environment.	
The trainee completes, files, or distributes documentation in a manner that complies with workplace practices.
