KNOWLEDGE ASSESSMENT (TO BE COMPLETED BY TRAINEE)

QUESTION	C / NYC
1. List at least 4 things that you would inspect as part of a pre-start check.	
2. List at least 3 issues that that could impact the safety of the machine (e.g. overly worn tyres).	
3. What should you do if you identify significant defects or issues during your pre-start check?	
4. List at least 2 safety features on this machine and their function.	

<p>5. List 5 hazards that may exist during operation of this machine. For each hazard, list a control measure to manage that hazard.</p>	
<p>6. List any PPE requirements that may exist for this machine.</p>	
<p>7. List an emergency situation that could occur during operation of this machine and include how you would respond to this situation.</p>	
<p>8. Where should you park the machine and what should you do with the keys when you have finished?</p>	
<p>9. Describe any safety considerations for refuelling or recharging this machine.</p>	

PRACTICAL ASSESSMENT (TO BE COMPLETED BY ASSESSOR)	
TASK / OBSERVATION (TRAINEE MUST SUCCESSFULLY DEMONSTRATE THE FOLLOWING)	C / NYC
PLANNING & PREPARING ROLLER OPERATION	
The trainee can access, interpret, and apply roller operations documentation.	
The trainee obtains, interprets, clarifies, and confirms work requirements.	
The trainee identifies hazards and environmental issues, assesses risks, and implements control measures in accordance with workplace policies.	
The trainee selects and wears the necessary personal protective equipment for work activities.	
Traffic management signage requirements are identified, obtained, and implemented by the trainee according to standard operating procedures and safe work practices.	
The trainee selects the required roller equipment and confirms its suitability for work activities.	
The trainee obtains and interprets emergency procedures for rollers, and they are prepared for fires, accidents, and emergencies.	
Prior to the commencement of work activity, the trainee coordinates and communicates planned activities with others at the site.	
ROLLER OPERATION IN LINE WITH ESTABLISHED REQUIREMENTS	
The trainee performs prestart and start-up checks following workplace procedures.	
The trainee identifies faults or defects and rectifies or reports them within their scope of responsibility and according to workplace procedures.	
When driving and operating the roller, the trainee uses techniques suitable for the equipment capabilities, site, and work conditions, following workplace procedures.	
The trainee ensures the work activity is performed within the operating capacity of the equipment.	
Adjusting accessories is done by the trainee in line with workplace procedures.	
The trainee engages and disengages the compacting device.	
The trainee identifies, removes, or manages contaminants in a safe manner, incorporating safe work practices.	
Monitoring hazards and risks during operations, the trainee ensures the safety of themselves, other personnel, and plant and equipment.	
The trainee monitors and manages equipment performance using indicators and alarms.	
After completing the task, the trainee parks up, shuts down, secures, and carries out a post-operational inspection of the equipment following workplace procedures.	
PREPARATION FOR ROLLER RELOCATION	
The trainee prepares the roller for relocation.	
The trainee moves the machine safely within and/or between work areas, observing relevant codes and traffic management requirements.	

The trainee assists in loading and unloading the machine from the float/trailer as required by workplace procedures.	
HOUSEKEEPING ACTIVITIES	
The trainee clears the work area and disposes or recycles materials according to workplace procedures.	
The trainee manages and/or reports hazards to maintain a safe working environment.	
The trainee completes, files, or distributes documentation in a manner that complies with workplace practices.
